SUMMARY

Project Manager with 4+ years of experience leading software delivery in cross-functional and international environments. Experienced in Agile delivery, stakeholder management, requirements management, and project governance across scope, schedule, budget, and risk. Native Spanish speaker with C2 English proficiency.

CORE COMPETENCIES

- Project Planning & Scheduling
- Scope, Budget & Risk Management
- Stakeholder & Client Management
- Agile / Scrum / Kanban
- Backlog Refinement & User Stories
- Requirements Elicitation & Documentation
- Cross-functional Team Leadership
- KPI Reporting & Project Tracking

EDUCATION

UTN FRD

Bachelor's degree in Information Systems Engineering

95% completed — Expected graduation: Jun. 2026

EXPERIENCE

SR PROJECT MANAGER

02/2025 – 09/2025

BiggerTech

Led end-to-end delivery of blockchain and Stellar Network integration projects for an Australian software factory. Managed project scope, timelines, priorities, and stakeholder communication across multiple squads. Mentored junior Project Managers on Agile and Scrum practices, improving team delivery consistency.

PROJECT MANAGER

08/2024 – 11/2024

IT Rock

Limited-time position where I managed end-to-end software projects, covering Project Manager, Product Owner, and Scrum Master responsibilities. Owned roadmap planning, backlog refinement, sprint coordination, and daily stakeholder reporting. Coordinated cross-team alignment and improved workflow efficiency to support on-time delivery.

PROJECT ANALYST

01/2024 – 06/2024

HANSEN Technologies

Performed project tracking, requirements analysis, and budget monitoring in a fully remote English-speaking environment. Improved Jira workflows and prepared KPI-oriented status reports for stakeholders. Supported decision-making through data analysis.

PROJECT COORDINATOR / PROJECT MANAGER

06/2023 – 01/2024

PwC Acceleration Center Argentina

Supported PM team operations through data analysis, deliverable tracking, and stakeholder reporting at a Big Four firm. Standardized and improved project templates to increase reporting quality and consistency.

DELIVERY MANAGER → PROJECT MANAGER

10/2022 – 04/2023

Correo Argentino

Started as Delivery Manager and was promoted to Project Manager within months. Defined user stories and translated business needs into technical requirements. Managed budget requests, reporting, and feasibility analysis in Jira/Confluence.

FUNCTIONAL ANALYST

02/2022 – 05/2022

OSPe

Gathered, formalized, and prioritized user requirements from key stakeholders. Facilitated client-development workshops and executed end-to-end QA testing.

FULLSTACK DEVELOPER / FUNCTIONAL ANALYST

05/2021 – 11/2021

Freelance

Designed and developed applications for stock control and inventory management for startups. Managed the full project lifecycle: requirements definition, roadmap planning, sprint execution, client demos, and final delivery.
